Swimming Official's Regional Training Opportunities Judge Level 2/2S - updated

Following the success of the trial period of virtual delivery of JL2 and JL2S courses during the spring and summer this year, counties within the region have agreed to continue to offer a structured plan of virtual online training for all judge level 2/2S trainees, with planned dates throughout the year within the region. Training will be offered either by MS Teams or Zoom.

County Officials Coordinators agreed that this delivery spreads the workload around the region, at the same time offering trainee judges various dates and times convenient to them to attend virtually.

County Coordinators will be adding further training opportunities during the year. These are the dates confirmed so far: -
